

GLC 2200 Controller

Compact and Versatile for all Automatic Lubrication Systems

A great design to ensure your equipment is lubricated properly

- Compact design
- User-friendly control panel
- Visual and audible alarm

PROVEN QUALITY. LEADING TECHNOLOGY.

Control for Your Investment

You spend a lot on your equipment. The GLC 2200 controller helps protect components by alerting you to lube event failures and low lubrication levels. You have peace of mind knowing your investment is being protected.

Intelligent Feedback

Choose the rugged GLC 2200 controller for in-cab monitoring of any 9-30 VDC system.

External Mounting Tabs

Easy to mount without having to open the control box.

Monitoring LEDs

LEDs let you know what your system is doing at a glance.

Digital Readout

Easy to read digital display makes it simple to program and monitor your equipment.

Visual and Audible Alarms

In-cab visual and audible alarms let the operator know your equipment needs attention. Or set up a remote audible alarm to alert service or maintenance staff.

Intuitive Control

Simple icon based push buttons make programming easy.

Plug and Play

Colour coded wiring harness with flying leads and easy-to-follow wiring diagrams makes installations efficient.
